

Ravindu Deshan

Software Engineering Undergraduate

Software Engineering Undergraduate at The Open University of Sri Lanka with hands-on experience in Full-Stack Web Development, Frontend Engineering, Mobile Application Development, Software Testing, and UI/UX Design. Proficient in JavaScript, React.js, Node.js, MongoDB, Firebase, REST APIs, and Git. Experienced in developing, testing, and deploying web and mobile applications using modern software engineering practices. Seeking internship opportunities to contribute technical skills while gaining industry experience in Full-Stack Development, Frontend Engineering, Software Quality Assurance, and DevOps

Experience

Freelance Full-Stack Developer | ChemBridge LMS | 2025 April - Present

- Collaborated with stakeholder to develop and maintain a Learning Management System.
- Led frontend and backend development using the MERN stack.
- Designed and implemented REST APIs for user and content management.
- Managed deployment, updates, and bug fixes in the production environment.

Projects

► ChemBridge LMS (www.chembridge.lk)

- Developed a full-stack Learning Management System
- Implemented JWT authentication, online examinations, chatbot integration, and worksheet management.
- Built responsive interfaces using React.js and Tailwind CSS.
- Integrated MongoDB for data storage and management.
- Deployed the application using Vercel and Render.

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Git, GitHub, Vercel, Render
Demo | Frontend Repository | Backend Repository

► Teacher Management System

- Developed a web application for managing teacher records and administrative tasks
- Implemented leave request and approval workflows.
- Built attendance and academic record management modules.
- Applied form validation and CRUD operations using REST APIs.
- Collaborated using Git in a team development environment

Technologies: React.js, Node.js, MongoDB, Git
Frontend Repository | Backend Repository

► Train Tracker Mobile Application

- Built a real-time train tracking mobile application.
- Integrated Firebase Realtime Database for live updates.
- Designed user-friendly mobile interfaces.
- Optimized application performance for smooth user experience.

Technologies: React Native, Firebase
Repository

► NIC Verification Mobile Application

- Developed a mobile application to validate Sri Lankan National Identity Card numbers.
- Implemented real-time data validation with Firebase.
- Designed responsive mobile screens for improved usability.

Technologies: React Native, Firebase
Repository

Certifications

Software Quality Assurance Using Test Automation Framework (In Progress)

- University of Colombo School of Computing (UCSC) | June 2026 – Present

Education

The Open University of Sri Lanka
Bse(Hons) Software Engineering
2023 – Present

GCE A/L – Maths Stream
H/Rajapaksha Central College
2020

Skills

• Programming Languages:

JavaScript, Python, Java, C, TypeScript

• Frontend Development:

ReactJS, HTML5, CSS3, Tailwind CSS, TypeScript, Responsive Web Design

• Backend Development: Node.js,

Express.js, REST APIs

• Database Technologies:

MongoDB, Firebase, SQL

• Software Testing (QA): Manual

Testing, Test Case Design, Bug Reporting, Functional Testing, API Testing (Postman)

• Mobile Development: React

Native, Android Studio, Firebase

• UI/UX: Figma, Wireframing,

Prototyping, User-Centered Design, Responsive UI Design

• DevOps & Tools: Git, GitHub,

GitHub Actions, Vercel, Render, CI/CD Basics, VS Code
